

**PARTNERSHIP
FOR CLEAN WATER
AND EDUCATION**

TOGETHER

We Can Make a Difference

THE PARTNERSHIP FOR CLEAN WATER AND EDUCATION (PCWE) is a group of faithful volunteers committed to mission-oriented work that changes lives through the gift of clean, plentiful water. Originally working in coordination the Episcopal Church, PCWE eventually formed a separate organization to galvanize and expand the reach of the outreach effort. We now operate independently with the mission to bring clean water and to support educational opportunities to those parts of the world most in need of these basic building blocks.

WHAT WE DO

PCWE's premiere partnership is with the Honduran non-profit, Agua Para el Pueblo, or Water for the People (apphonduras.org). Through generous donations, we work with *Water for the People* to provide the funding, planning, and installation of gravity-fed clean water systems which permanently change lives.

WHY IT MATTERS

Active participation is central to the work we do, being physically and spiritually present, and working side by side with the residents of the communities which we are called to serve. **OVER 100 PCWE missionaries and alumni** understand that the sweat equity commitment is as important than the financial commitment.

HOW YOU CAN HELP

PCWE is interested in connecting with like-minded individuals and organizations to meet needs where they exist in the United States and around the world.

2019 HONDURAS MISSION TRIP

Plans are underway for the 2019 mission trip to Honduras in February to serve the village of Piedras Coloradas and its 133 residents. A gravity-fed clean water delivery system will be designed and installed for the community.

Each missionary is responsible for his/her own travel costs so that donations can be directly applied to the project. Project costs typically range between **\$25,000-\$30,000** per year – an insanely small amount of money for the return on investment!

**For more information or to
make a donation please visit us at
www.pcwe.org**

It's unquestioned that PCWE missionaries get more than they give through their participation in our unique mission work.

"We can make a difference!

I am so thankful for recognizing the things I take for granted and how blessed I am in my everyday life. What an eye opening experience, these trips are very humbling. The human spirit is a wonderful thing. Memories forever!"

Knute Bidne
2010, 2011, 2012

"I've gone to Honduras with PCWE for many years and come back energized in different ways each time.

Sure, we're committed financially to the projects, but offering monetary support is nowhere near as impactful as the sweat equity of building these gravity-fed clean water delivery systems, working side by side with those whom we are serving.

That kind of personal involvement is intentional evidence that we're interested in much more than a photo opportunity."
